

Primary 2B's Class

Newsletter

What we will be learning:

Maths

This term we will be learning about measure, place value and symmetry. All these concepts will link into our interdisciplinary topic which is Toys.

We will also be continuing to concentrate on addition and subtraction sums. This will help us become more confident in adding and taking away extra tricky sums.

What we will be learning:

Interdisciplinary Topic

This term primary 2B will be learning about Toys. We will be looking at toys from the past and toys which we think will be made in the future. We will be looking at how toys are made and how they have changed throughout the years.

Making toys and researching about different toys will help the children to understand the difference between each one.

During this term we will be looking to see what toys the children have got at home and what toys their mummies and daddies used to play with when they were younger.

Homework

Homework will be handed out every Monday and returned to school every Thursday.

Phonics homework will be handed out on a Tuesday and should be returned every Thursday

What we will be learning:

Literacy

This term primary 2B will be concentrating on our writing skills. The class will be looking at adding grammar as well as making sure they have put capital letters and full stops within their sentences. We will need to make sure we are using WOW words too.

Primary 2B are progressing in their reading skills and are growing in confidence in recognising new words. This will continue throughout this term.

Important Dates

Zumba Night - Wednesday 27th January 2016

Dress in Red £1 - Friday 12th February 2016
