

Easter Activities

The Easter break begins from Friday 3 April until Monday 20 April. While it might feel very different from the traditional Easter holidays it is still important for everyone to give themselves a break. Check out the links below for useful information and for some ideas on how pupils and families can keep busy over the Easter period. Please note that some of these do have activities that will not be possible, for instance on one it tells you to go visit a petting farm, unfortunately that will not be possible to do, another says to have a big party, again that will not be possible to do, apart from having a party with your own household. Please make sure you still follow the Government guidelines, whilst having fun:
