

Back to School, Mallory

Chapter 2 - Inference

L.I. I am using looking for evidence in the text that infers that Mallory does not like her first day at school.

S.C.

* I can read Chapter 2 looking for evidence that shows Mallory does not like her first day at school.

* I can write the phrases using quotation marks.

* I can write the page numbers where I found the quotes.

e.g. "I wish a bulldozer would run over me." Page 33.

This quote infers that Mallory is not enjoying her first day at school as she would rather be injured by a machine than be sitting at the table talking to nobody.
