L.I. I am using looking for evidence in the text that infers that Martin Luther King, Jr. was intelligent.

S.C.

* I can read Chapter 2 looking for evidence that shows Martin Luther King, Jr. was intelligent and wanted to learn.

* I can write the phrases using quotation marks.

* I can write the page numbers where I found the quotes.

e.g. "Then they went back to Boston to live while Martin finished is PhD" Page 18.

This quote infers that Mallory is intelligent as to get a PhD, you need to have already graduated university with a degree and gone on to do further, harder study and have to be a dedicated student.
