

Back to School, Mallory

Chapter 13 - Inference

---

L.I. I am using looking for evidence in the text that infers that Mallory wants to be friends with Pamela

S.C.

\* I can read Chapter 13 looking for evidence that shows Mallory wants to be friends with Pamela.

\* I can write the phrases using quotation marks.

\* I can write the page numbers where I found the quotes.

e.g. "I didn't think I would ever smile again, but I do." Page 146.

This infers that Mallory is starting to enjoy the conversation she is having with Pamela, and her smile comes right after Pamela has mentioned wanting to be friends.

Therefore, this shows that Mallory agrees with Pamela's sentiment.

**Both and quote and the sentence have to be written.**
