Chapter 7 - Inference

L.I. I am using looking for evidence in the text that infers that 1964 was an important year for the Civil Rights Movement.

S.C.

* I can read Chapter 7 looking for evidence that shows that 1964 was an important year for the Civil Rights Movement.

* I can write the phrases using quotation marks.

* I can write the page numbers where I found the quotes.

e.g. "On July 2, 1964, President Johnson signed the Civil Rights Bill into law" Page 62.

This quote infers that 1964 was an important year for the Civil Rights Movement as it is when the 'Civil Rights Bill' got signed and this meant that segregated school could no longer exist.

Right both the quote and the explanation.
