

## The Bolds

**LI: Strategy 1: Prior Knowledge - I am learning to use my prior knowledge to help me predict what my book is about.**

### Success Criteria

- Look at the front cover. Read the title, the author's name and look at the picture. Think about what you already know about the author and the type of book he writes. Note down your ideas.
- Read the blurb on the back. Add to your notes.
- Discuss this with your partner and note down what ideas you had that were the same or different.
- When you have done this, read Chapter 1, then write down how your thinking may have changed since before you read the chapter.

**Set your work out like this:**

Before Reading	Before Reading	After Reading
What I think the book will be about	What my partner thinks	How my thinking has changed
