L.I. To gather ideas for our new piece of writing.

Steps to Success

I understand what we are now writing about.

I can gather key vocabulary.

I can use my experiences to gather key vocabulary for my writing.

I can complete a mind map to collect key ideas.

For our next writing task we will be conveying an experience...

But what does that mean?

Although it sounds fancy all it means is you will be writing about something you have experienced yourself.

What experience could we convey?

Right now, we are all experiencing what is like to live in 'lockdown'. This is a very unusual experience for us all and will probably be something we all remember in years to come. So this is what we will be writing about!

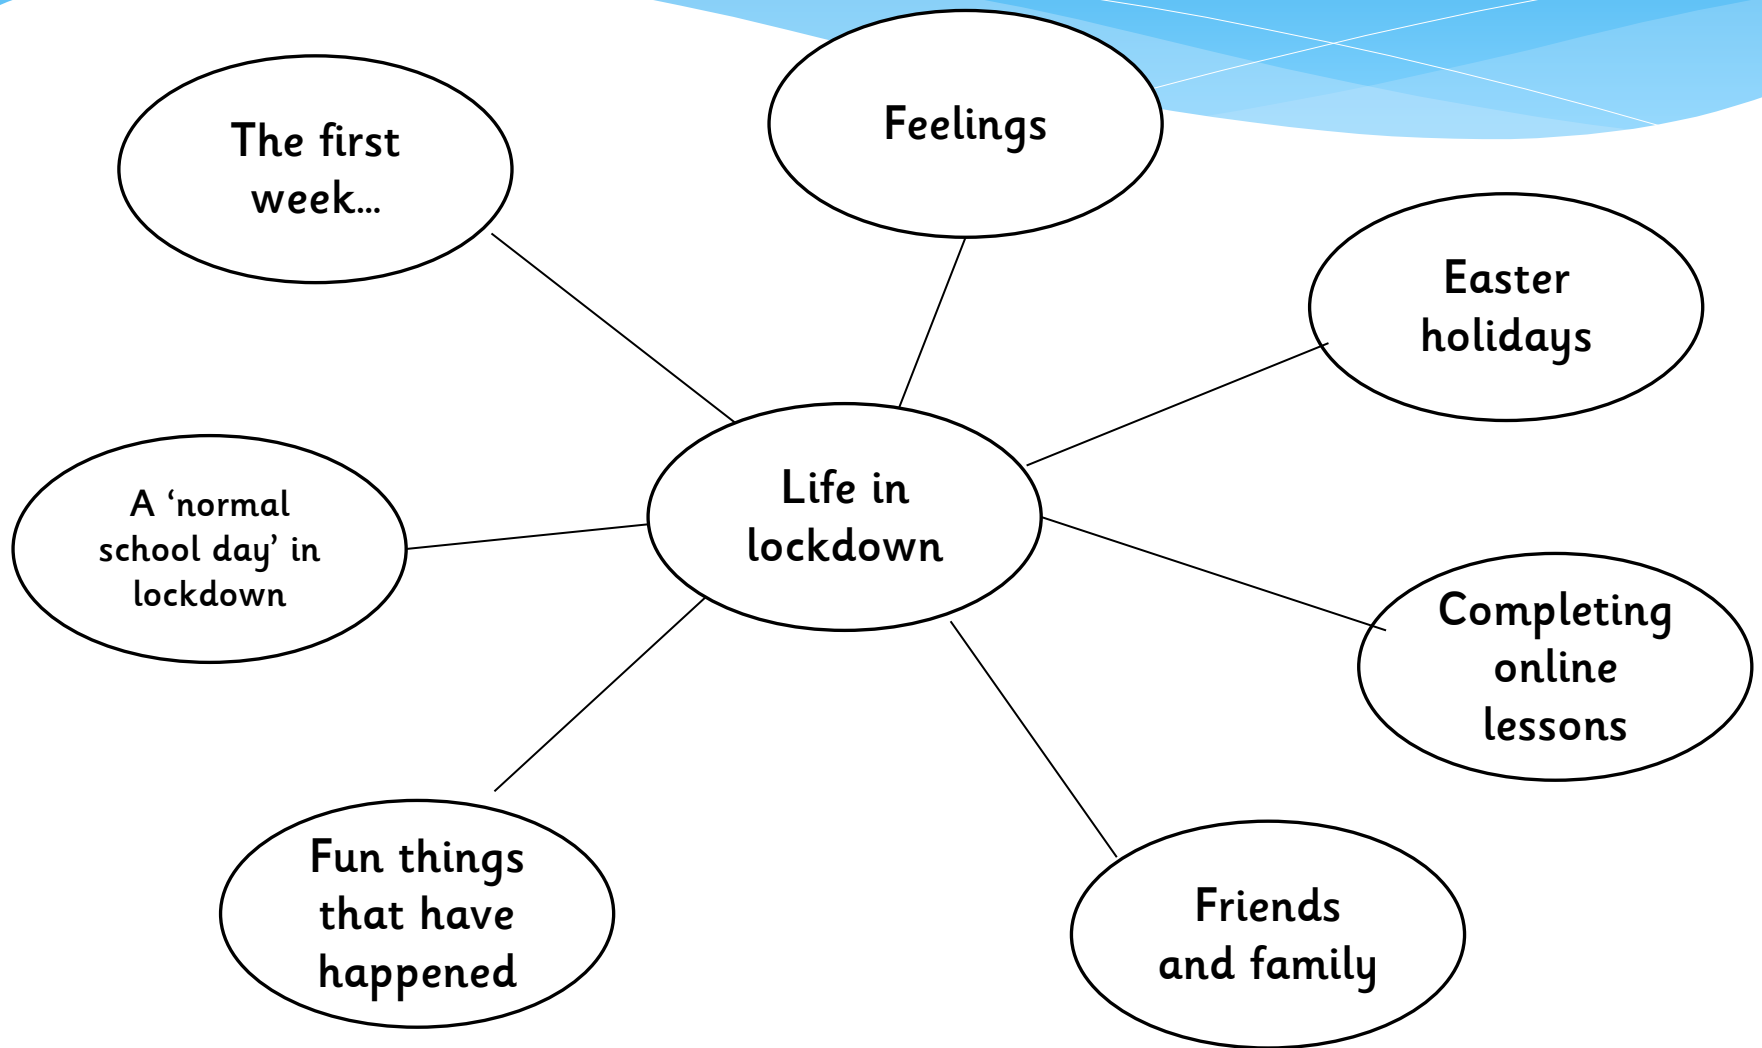

Today we will be gathering ideas and key vocabulary...

We will do this by drawing a mind map...

Copy the following mind map into your jotter and write key words around each section...

Now, let's reflect on our learning!

Do/can you...

...know what our next writing topic is about?

...know what it means to 'convey an experience'?

...gather key ideas and vocabulary to write about?
