Key Literacy Activity

- Grammar – Prepositions

A preposition is a word that tells you where something is in relation to something else.

Examples are – **on, in, by, across, above**

Look at the powerpoint ‘prepositions’

Either work your way through the powerpoint answering the questions as you go **or** take your learning outside and write 6 sentences about what you see in the garden – for example: **The flower is growing in the plant pot.** Try using a different preposition every sentence.

To extend your learning, you could try page 6 and copy out the paragraph.
