Literacy Activity

- Create a Weather Report

Last week you wrote a weather report similar to the ones you see/hear on TV and radio. This week we would like you to create your own script for a weather report to share with the rest of your class! You can choose to make a short Powerpoint or you could video a report you have created and upload it to TEAMS. If you decide to video your report you might want to wait until you have completed today's Art lesson where you are making props for a weather report!

Watch this clip to see how one boy and his Dad made a weather report!

<https://www.youtube.com/watch?v=acssboxTuSE>

Be as creative as you like! If you don't want to appear on screen you could use a stuffed animal! Watch this to see how....

<https://www.youtube.com/watch?v=gpBuaU5OPi8>

You can create a report that reflects our weather right now or like the 2<sup>nd</sup> clip you could report on typical weather across the globe!

**This can be shared anytime between today and Friday.**

I have left the WAGOLL from last week to remind you of what you might want to say...

Literacy WAGOLL – Weather Report

The Weather for today

Welcome to the Weather Report for West Lothian for the 21<sup>st</sup> April 2020.

This morning the weather is unusually warm for this time of year with highs of 18° and sunny spells in many parts of West Lothian.

By this afternoon the sun will have slipped behind the clouds and we can expect to see showers by tonight. Temperatures could fall as low as 6°.

The forecast for tomorrow is rain sweeping in from the east along with a chilly breeze which will continue into the evening.
