

Literacy

I think you have all been working so very hard with your Home Learning, but I am not clever on a computer like Ms Young. So, for literacy today I am combining literacy and reading.

We have given you some sites to read books or listen to stories. Choose a story you have liked, or perhaps one you read from home and think about the beginning, middle and end. Draw a picture for each part. You can use the top half of a page for each illustration. Underneath P1 I would like you to write at least 1 sentence. If you find this difficult ask someone to write your sentence and copy underneath or from another piece of paper. P2 (almost P3) can you please try to write at least 2 sentences. Remember how a sentence starts and ends and use lots of describing words - make it exciting.

Numeracy

Today we are going to look at large and small numbers. A quick song as a warm up.

<https://www.youtube.com/watch?v=M6Efzu2slal>

https://www.youtube.com/watch?v=YhOf0H_gLP8

Write the numbers 1-10 on individual slips of paper and lay them face down. Pick 2 pieces and say which is the largest number, record your findings in your jotter using the crocodile mouth.

Primary 2 your challenge is to write at least two slips for each number and pick 4 pieces of paper. Put two together, which two make the largest number? Record your answers.

Now play

Topic

Today we are going to do a little cross curriculum work. Do you remember before the winter break we were learning about symmetry? That is where something has an imaginary line down the middle and each side is a mirror image.

Your challenge is to make a symmetrical butterfly using lego if you have some or use any construction materials you may have. Alternatively draw and colour one but make sure it is colourful and symmetrical.

I'm sure you could build a better one!

Take a picture and post it for everyone to see.
