Class: Primary 2	Numeracy and Maths	
Task 1	Task 2	Task 3
We are learning to find a tenth of a shape. A tenth is when you split something into 10 parts. Draw a long rectangle and split it into 10 fractions. See below: After you have split your rectangle into tenths colour: • 1/10 red • 3/10 blue • 2/10 yellow • 2/10 black • 1/10 white • 1/10 pink	Create a poster to explain what a fraction is and give examples of some of the fractions which you have learned about. Some ideas to consider: What is a half? What is a quarter? Draw an example Which part is the denominator? Which part is the numerator? What do these tell us?	For more fraction work try these games below: https://www.ictgames.com/mobilePage/firepitFractions/index.html **Level 1 or 2:** https://www.ictgames.com/mobilePage/firepitFractions/index.htm
