

Chance

Name: _____

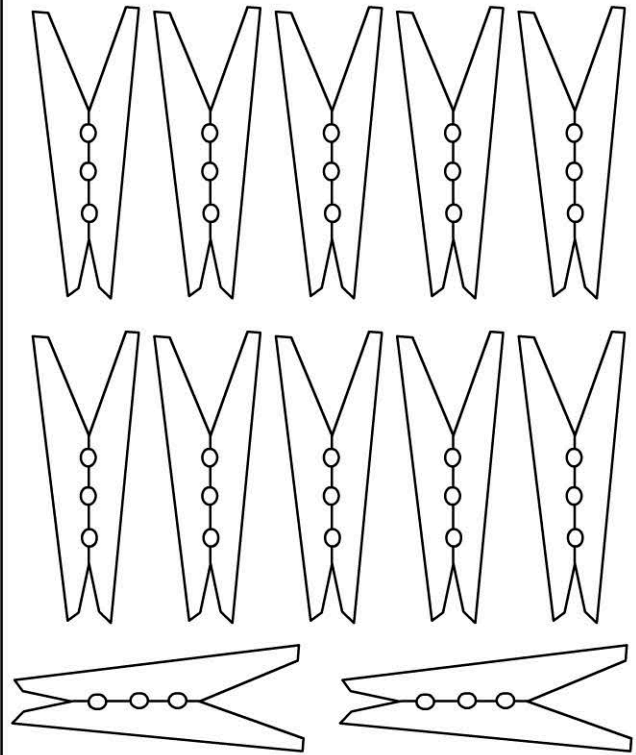

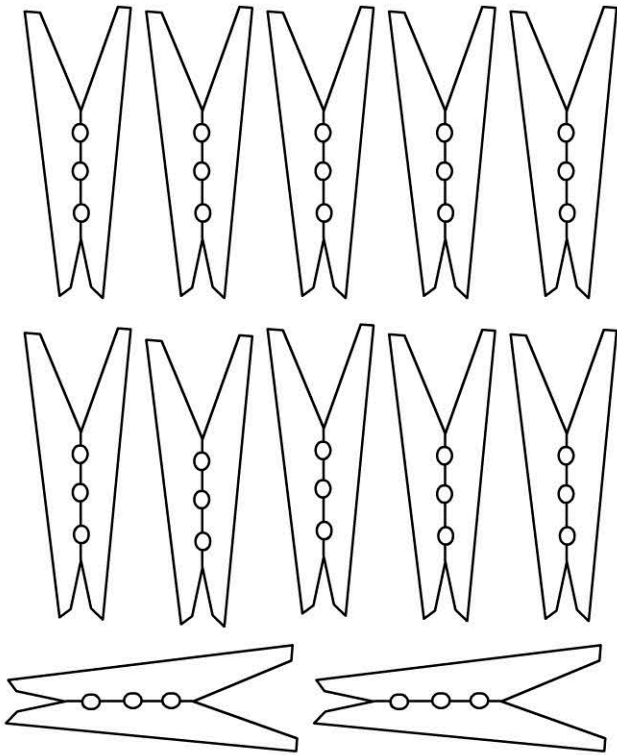

Conducting a simple chance experiment

Coloured Pegs

- 1) Put 15 pegs of one colour and 15 pegs of another colour into a bag. Write the two colours in the headings on your chart.
- 2) Without looking, pull out a peg.
- 3) Record the peg's colour by colouring a peg on the correct side of the chart.
- 4) Repeat until you have recorded 20 turns.
