

Class P1 Numeracy and Mathematics		
Numeracy Task 1	Problem Solving Task 2	Money Task 3
<p><u>Aim:</u> To spot 2-digit numbers in my environment</p> <p>This task follows on from the number task yesterday. Find 2-digit numbers around your house. Look on food packaging perhaps. Lay these numbers out with practical materials. Write the numbers and say the number of tens and the number of units.</p> <p><u>Extra challenge:</u> You could try spotting 2-digit numbers outside too when you go for a walk. Look at the numbers on car number plates or house doors for example. Can you read the numbers and say how many tens and how many units?</p>	<p><u>Aim:</u> To solve a problem by acting it out</p> <p>If you can, gather 4 dolls/teddies/toy characters to act as 3 people and 1 pet. Also gather 9 pieces of Lego/blocks/playdough to act as 9 sausages.</p> <p>Complete the following problem using your people, pet and sausages to help.</p>	<p><u>Aim:</u> To know why you need to save money.</p> <p>Talk to an adult about why they may need to save some money sometimes. What kinds of things do your family need to save up for. All the P1 teachers save up money to pay for holidays. Think about things you might like to save up for. Talk about how things cost different amounts of money. Things that cost a lot will take a long time to save up for. Write down, draw or talk about 3 things you would like to save up for. Find out how much they cost? Which will take the least / most time to save up for?</p> <p><u>Extra challenge:</u> Play an interactive money game. Google - NatWest mymoneysense then select 'parents' then '5-8' then 'interactive activity' <a href="https://natwest.mymoneysense.com/parents/5-8/">https://natwest.mymoneysense.com/parents/5-8/</a></p>

1.  If each person gets 1 sausage, how many for Fido? .....

2.  If each person gets 1 sausage, how many for Fido? .....

3.  If each person gets 2 sausages, how many for Fido? .....

4.  If each person gets 2 sausages, how many for Fido? .....

5.  If each person gets 2 sausages, how many for Fido? .....
