### Typing

#### **L.I. To learn the position of each letter on a keyboard**

This week it's time to complete stage 3 ('r' and 'u') of Level 1 of Dance Mat Typing! Click on the link and complete this week's tutorial. This activity only works if you are on a **laptop**.

If you are on a **device**, try this activity instead:

**Mild - Hot:** <https://www.turtlediary.com/game/typing-race-beginner.html>

You can choose your level depending on how confident you are about typing

**Extra Hot:** <https://www.typerush.com/> (you can play the boat or the car race)

## Problem Solving

### L.I. To reason logically

Would you rather? Solve the following problems and explain your answers in your green jotter. You may use a calculator if you have one however challenge yourself mentally first.

Try and signpost your answers – for example “I would rather eat 205g of Turkish delights than  $\frac{1}{5}$  of a kg (kilogram) of Turkish delights **because...**”

### **Key questions for reflection in your green jotter:**

How will you compare these two images or amounts?

How did you get to the answer? (a sum? picture? problem solving strategy?)

### **Would you rather...**

1. ...have 50  coins or 9  coins?

2. ... have  $\frac{1}{4}$  of a gâteau  or 30% of a gâteau?

3. ... climb 50 stairs over 1 minute or 100 stairs over 100 seconds?

4. ... eat 205g of Turkish delights or 1/5 of a kg (kilogram) of Turkish delights?

5. ...go on a rollercoaster (or any amazing fairground ride of your choice) for 200 seconds or for 4 minutes?

6 ... buy a bag of sweets that costs 95p for 250g or £3.50 for 1kg
