French

We now have access to a fab new languages website called Linguascope (www.linguascope.com). You will need the username and password to log in. We are unable to post the username and password to the blog. However, you can access the details from Teams, or you can email the school and the details will be emailed to you.

When you log in, click on the French flag in the beginner section. Next click on 'Choose a Topic' and click 'Leisure' (Les Loisirs). Have a go at working through the sections. The 'Présentation' button will show you the vocabulary and you can play some of the games underneath to practise your words. Have fun!

Numeracy

L.I. To estimate calculations

In your green jotters complete the worksheets. These relate to the PowerPoints you did yesterday on estimating calculations. The answers are at the bottom for you to self-mark!

Spelling

L.I. To spell common words correctly

Here are the spelling words that you've been practising for the last two weeks. Ask a member of your household to quiz you on your words. Share your score with your teacher.
