

Monday 1.6.20

Literacy

L.I. To read for information

Attached is a fact sheet about Andy Murray along with some questions for you to answer in your green jotters. No peeking at the answers!

Alliteration – complete the sheet with three stars at the bottom

Metaphor – complete the sheet with two stars at the bottom

Personification – complete the sheet with one star at the bottom

Simile – complete the sheet with one star at the bottom. Some of the works are quite tricky so you may want to ask a member of your household to help you read the text.

Numeracy

L.I. To revise previous learning

Make up one mild, one spicy and one hot question based on what we have been learning in Numeracy. You could do questions based on number patterns, multiplication, division, fractions, place value, time, area, money... On Wednesday at 2pm (instead of our novel) we will then have a Primary 5 **live** quiz. You will choose whether you would like to answer mild, spicy or hot questions. Then each person will ask their questions and we will write down our answers.

Your task today is to prepare 1 mild, 1 spicy and 1 hot question to read out on Wednesday for our Numeracy Quiz (don't share these on Teams until our quiz)!

***If you aren't using Teams, someone in your house could test your numeracy knowledge with 10 questions! ***

Health and Wellbeing

L.I. To explore the role of sleep

Find out how much sleep is recommended for children of your age. Why is it important to get enough sleep?

Next, find out which living thing needs most sleep. How much sleep do your favourite animals need? Share what you have learned with your class on Teams.
