

# Dice totals

Roll two dice and write the totals.

$$\boxed{4} + \boxed{6} = \boxed{10}$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

$$\square + \square = \square$$

I can count the total of two groups
