

Class P1 Numeracy and Mathematics

Numeracy Task 1

Aim: To use the 'less than' sign

Find things to use to make a less than sign from around your house. Put a small number at the start at the pointy end and put a larger number at the open end of the sign. Remember to think about the hungry crocodile who always likes to eat the biggest number. Look at the photographs on the next page to help.

Extra challenge: Try using larger numbers in your sentences like in the last photograph.

Number Task 2

Aim: To apply number knowledge to play a game

Whilst on a walk play 'Car number plate challenge'

You may see some numbers with zeros at the start such as 09. This is the same as a units number on its own. 09 is the same as 9. 08 is the same as 8. The game is in a larger font on one of the following pages.

Car Number Plate Challenge. Can you spot these numbers?	
The number after 16	
The number before 68	
The number between 15 and 17	
The number 2 more than 67	
The number 2 less than 17	
An even number more than 63	

Car Number Plate Challenge.
Can you spot these numbers?

The number after 16

The number before 68

The number between 15 and 17

The number 2 more than 67

The number 2 less than 17

An even number more than 63
