

Count on and back

Write numbers in the clouds and above the arrows. Count on and back to add and subtract.

$$\begin{array}{ccc} \text{Cloud with } 5 & \xrightarrow{\quad + 6 \quad} & \text{Cloud with } 11 \end{array}$$

$$\begin{array}{ccc} \text{Empty Cloud} & \xrightarrow{\quad + \quad} & \text{Empty Cloud} \end{array}$$

$$\begin{array}{ccc} \text{Empty Cloud} & \xrightarrow{\quad + \quad} & \text{Empty Cloud} \end{array}$$

$$\begin{array}{ccc} \text{Empty Cloud} & \xrightarrow{\quad + \quad} & \text{Empty Cloud} \end{array}$$

$$\begin{array}{ccc} \text{Cloud with } 12 & \xrightarrow{\quad - 8 \quad} & \text{Cloud with } 4 \end{array}$$

$$\begin{array}{ccc} \text{Empty Cloud} & \xrightarrow{\quad - \quad} & \text{Empty Cloud} \end{array}$$

$$\begin{array}{ccc} \text{Empty Cloud} & \xrightarrow{\quad - \quad} & \text{Empty Cloud} \end{array}$$

$$\begin{array}{ccc} \text{Empty Cloud} & \xrightarrow{\quad - \quad} & \text{Empty Cloud} \end{array}$$

I can count on and back to add and subtract
