

Subtracting

Use the number track to count back. Make up some more counting back questions.

1. $35 - 5 = \square$

2. $46 - 6 = \square$

3. $52 - 2 = \square$

4. $64 - 4 = \square$

5. $72 - 3 = \square$

6. $85 - 6 = \square$

7. $65 - 6 = \square$

8. $74 - 4 = \square$

9. $85 - 7 = \square$

10. $74 - 6 = \square$

11. $68 - 9 = \square$

12. $82 - 6 = \square$

I can subtract by counting back on a number line
