EVERYONE MUST
KNOW CHILDREN'S
RIGHTS

Article 42 - knowledge of rights

Governments must actively work to make sure children and adults know about the Convention.

Activity 1

Design a card game, a quiz or a board game for younger children, which teaches them their rights. Your game could be something simple like pairs, or snap, or something completely different –you decide!

Activity 2

“Rights are of little use to people unless they are aware of them.”
What do you think this sentence means? Do you agree? What could the Government do to promote rights to more people.
