

Making totals

Choose three of the numbers to make each total. Write them in the calculations.

1.

$$\begin{array}{r} \text{-----} \\ \text{-----} \\ + \text{-----} \\ \hline 105 \end{array}$$

2.

$$\begin{array}{r} \text{-----} \\ \text{-----} \\ + \text{-----} \\ \hline 111 \end{array}$$

3.

$$\begin{array}{r} \text{-----} \\ \text{-----} \\ + \text{-----} \\ \hline 112 \end{array}$$

4.

$$\begin{array}{r} \text{-----} \\ \text{-----} \\ + \text{-----} \\ \hline 86 \end{array}$$

5.

$$\begin{array}{r} \text{-----} \\ \text{-----} \\ + \text{-----} \\ \hline 141 \end{array}$$

6.

$$\begin{array}{r} \text{-----} \\ \text{-----} \\ + \text{-----} \\ \hline 92 \end{array}$$

I can add several 2-digit numbers by writing them one under the other
