## Five Card Trick

Malcolm the Magician has a set of 10 cards.

Each one has one of ten digits
0 – 9 written on it.

Five of the cards are laid out face down in a row.

The number on the 1st card and the 2nd card add to 13.
The number on the 2nd card and the 3rd card add to 12.
The number on the 3rd card and the 4th card add to 10.
The number on the 4th card and the 5th card add to 15.

What are the numbers on the cards?
