

# Mystery at Dragonspire Castle

## Maths Game

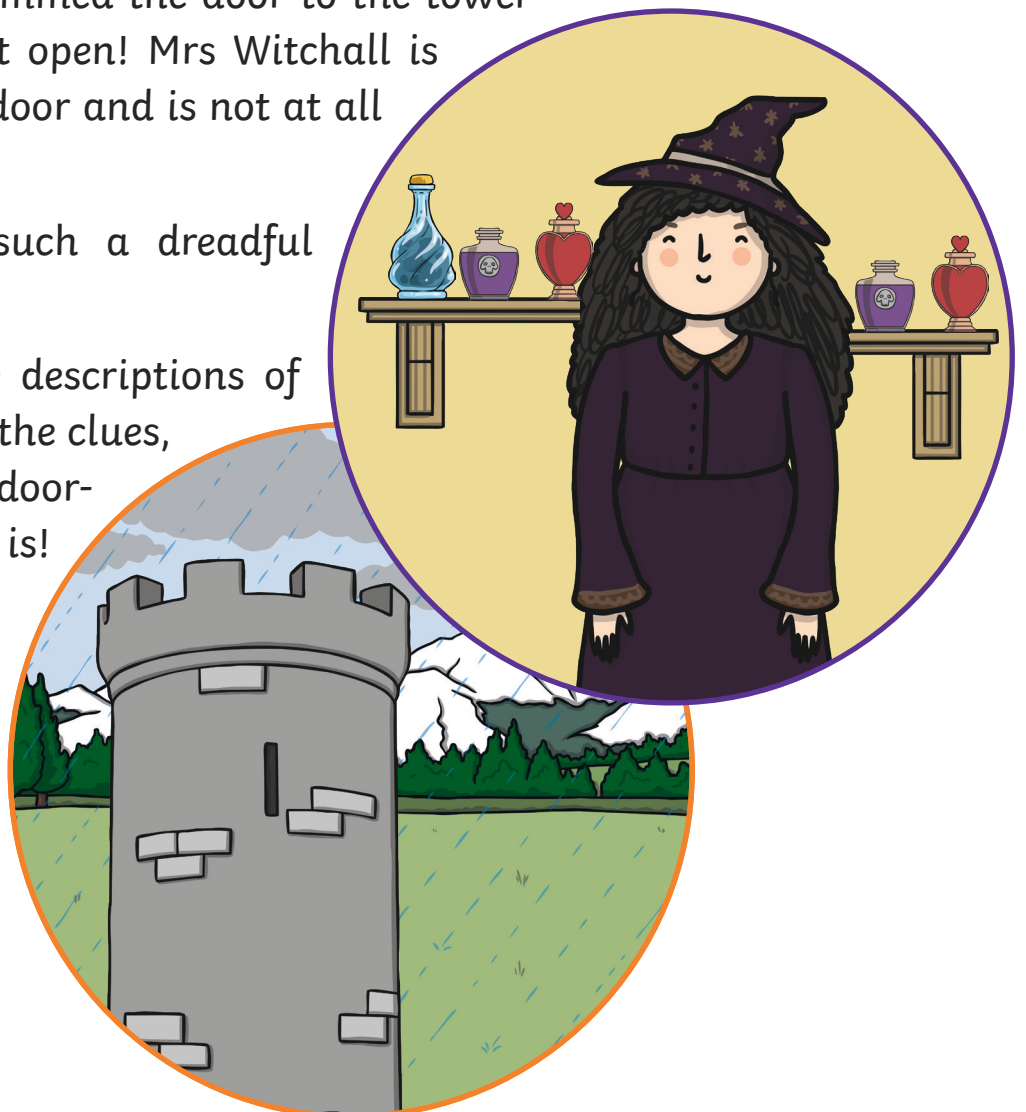

The children of St. Merlin's Academy are very excited because today is the day of their school trip. They are going to Dragonspire Castle and they cannot wait.

They have their rain coats, some money to spend in the gift shop and, most importantly, their lunchboxes! They travelled a long way on a coach, all singing at the top of their voices, and have had a wonderful time looking around the castle and going down into the dungeon.

But uh oh! Disaster has struck! Mrs Witchall, the potions teacher, dilly-dallied whilst she left the Ghost Tower, right at the top of the castle. Some naughty person has craftily slammed the door to the tower shut and now it won't open! Mrs Witchall is shouting through the door and is not at all pleased.

But who would do such a dreadful thing?

Your job is to use the descriptions of the suspects and solve the clues, to work out who the door-slaming culprit is!  
Good luck.

### Clue 3: Gate Numbers

1	2	3	4	5	6	7		9	10
11	12			15		17	18	19	20

	42	43			46	47	48	49	50

A thief at the castle has stolen some of the numbers and now the gate won't open! Fill in all the missing numbers.

If you write more odd numbers than even ones, then the culprit who locked Mrs Witchall in the tower had a bag of crisps in their lunchbox.

There are more odd numbers missing so the culprit did have crisps.

There are more even numbers missing so the culprit did not have crisps.
