

5 Questions

1. Recommend a job worth exploring for someone who is motivated by 'saving the planet'
 2. Which currently advertised NHS Apprenticeship would like you to have N5 Craft Design & Tech?
 3. Name one of the 2 colleges offering a course starting in January that would be great for someone who dreams of international travel.
 4. Name one university that offers a Graduate Apprenticeship in Software Engineering
 5. Write a question for yourself based on your 'How Ready Am I?' Radar and start researching the answer.
-
1. Sometimes we call 'planet-saving' jobs GREEN CAREERS. If you 'explore industries' you will find a link to job ideas in green careers.
 2. There are 3 types of NHS Apprenticeships advertised on the 'West Lothian SDS' Vacancy Bulletin aka Snippets (Career Navigator links to Latest Career Opportunities) with a closing date of 18 November. Find the one that mentions CDT in the Person Spec.
 3. College courses starting in January are a topical issue for people looking to leave Armadale at Christmas, so I have collected links to them all and put them in Latest News. Think of a job that would mean you travelling to other countries every day. There are 3 colleges offering a course about that job in January. West Lothian doesn't offer the course.
 4. This is the easiest question. There is a direct link from s5/6 page to a video about a Graduate Apprenticeship.
